Education

Dr. APJ Abdul Kalam Technical University
Bachelor of Engineering in Information Technology

Nov 2022 - July 2026
Ghaziabad, Uttar Pradesh

GHSS BajaBain
Intermediate - PCM

April 2021 - April 2022
BajaBain, Jammu

Skills

- **Frontend:** React.js, JavaScript, TypeScript, HTML5, CSS3, Figma, Responsive Design
- **Backend:** Node.js, Express, REST APIs, SQL, MongoDB, Authentication, WebSockets, API Testing
- **DevOps:** AWS, Firebase, Docker, CI/CD, Git & GitHub, Deployment Basics
- **Other:** Java, Data Structures & Algorithms, SDLC, OOPs, Team Collaboration, Time Management

Experience

Java Development Intern
Codec Technologies

June 2025 – August 2025

- Worked as a Java Development Intern at Codec Technologies, where I learned to build and debug Java applications using core concepts like OOP and collections, focusing on code quality and problem solving.
- Worked with standard software development practices, version control, and team-based workflows.

Frontend Developer
Machine Learning Centre of Excellence

2022 - 2024

- Developed educational platforms focused on Machine Learning for over 300 students, creating interactive learning interfaces using React Hooks, Redux, and Material UI to significantly boost student engagement.
- Improved application performance using efficient rendering and code optimization techniques consistently.

Projects

AI Virtual Assistant

[GitHub](#)

- Developed an AI-powered Virtual Assistant using React, Node.js, Express, and MongoDB, and integrated the Google Gemini API for voice command processing and powerful task automation workflows efficiently.
- Implemented robust secure user authentication (JWT) and an intuitive personalized dashboard enabling users to easily customize the assistant's name and avatar with improved usability and security controls.

Uber Clone

[GitHub](#)

- Built a full stack Uber-like application using React, Node.js, Express, and MongoDB with rider and driver management, ride tracking, real time updates, secure payment processing, and scalable backend architecture.
- Implemented real-time rider driver communication using Socket.io and Google Maps API for live GPS tracking and route optimization.

Certificates

Full Stack Web Development - Udemy
Introduction to MERN Stack - Simplilearn

Achievements

- **DSA:** Solved 150+ DSA problems on LeetCode, strengthening core problem-solving skills consistently.
- **ML Workshop :** Organized workshops for 150+ participants with hands-on, collaborative learning.
- **National Cadet Corps (NCC):** Served as an NCC Sergeant with leadership, discipline, team management, and responsibility.
